📍 Bangladeshi

SUMMARY

Senior Full Stack .NET Developer with 6 years of experience in C#, .NET, and cloud architecture using AWS and Azure. Skilled in Angular, React, Blazor WebAssembly, and jQuery. Proficient in full-stack development, cloud-native applications, and AI-driven development. Experienced team lead focused on building scalable, high-performance systems.

EXPERIENCE

Senior Full Stack Developer

Aventra Group Sdn. Bhd. | 📍 Kuala Lumpur, Malaysia

📅 January 2026 - Present

Multinational Technology company delivering innovative software solutions

- Leading team to develop internal products, managing end-to-end development process and ensuring timely delivery
- Architecting and implementing AI-driven features including sentiment analysis and RAG (Retrieval-Augmented Generation)
- Leveraging agentic AI tools (GitHub Copilot, Cursor, Claude) with MCP server, instructions, agent skills, and hooks
- Driving modern development practices across the team

Full Stack Developer

Domino's Pizza Enterprises | 📍 Kuala Lumpur, Malaysia

📅 January 2025 - December 2025

Australia-based, largest Domino's franchise worldwide

- Migrated global web platforms from .NET Framework 4.8 to .NET 8, ensuring stability for millions of users across 12 markets
- Built and deployed scalable applications that enhanced customer experience in Europe, Australia, and Southeast Asia
- Collaborated with a multinational agile team, improving release cycles, system reliability, and cross-market consistency
- Leveraged AI tools (GitHub Copilot, MCP Servers) and automated E2E testing with Playwright

Software Engineer

Public Bank | 📍 Bangi, Malaysia

📅 August 2024 - December 2024

Leading banking and financial services organization in Malaysia

- Led legacy banking software migration to .NET 8, implementing modular monolith architectures and seamless data integration with Microsoft SQL Server
- Developed and enhanced high-performance on-premise banking applications serving millions of users using .NET Framework MVC, C#, jQuery, and SQL Server

Software Engineer

Kaz Software | 📍 Dhaka, Bangladesh

📅 July 2020 - July 2024

Software development company with a focus on innovative IT solutions

- Led development of .NET 8/6, Angular, and React applications with scalable WebAPI, MVC, and real-time communication via SignalR, AWS WebSocket, and Twilio SDK
- Developed serverless applications using AWS Lambda, API Gateway, EventBridge, and Step Functions
- Implemented hybrid database solutions combining EF Core with MySQL and AWS DynamoDB

EDUCATION

B.Sc (Engineering) in Computer Science and Engineering

Comilla University

📍 Cumilla, Bangladesh

SKILLS

Backend Technologies

C# .NET 8/10 .NET Core
.NET Framework ASP.NET MVC Web API
Entity Framework Core

Frontend Technologies

Angular React Blazor WebAssembly
jQuery TypeScript HTML5 CSS3

Cloud Platforms & Services

AWS Lambda API Gateway DynamoDB
EventBridge Cognito S3
Azure App Services Azure Functions
Azure DevOps App Insights

Databases

SQL Server MySQL PostgreSQL
DynamoDB Redis Cache

Testing & DevOps

nUnit xUnit Playwright Docker
Git Azure DevOps CI/CD

Development Tools

Visual Studio VS Code GitHub Copilot
Cursor

CMS & Tools

Umbraco CMS

AI & Agentic Development

GitHub Copilot Cursor Claude RAG
